Well, I have been puppetised  
Oh, how I have compromised  
But definitely every thing's changed  
Somehow I'm different now

Drifting from girl who tries  
Misconstrued  
Drifting to woman wise  
So long, so long overdue

Ooh, I'm the woman who  
Can undo quite a few  
Things done wrong  
Wrong things done  
So long, long overdue

Ooh, I'm the woman whose  
Three wishes came true  
Fell in two, found the one  
Now I come and go as I choose  
Wearing my red magic shoes

Well, I wanna leave a legacy  
Of love and beauty  
Wanna know I've lived to love  
Loved to care and dared to dream

'Cause under the weight of the world  
Waits a girl  
'Til the wonder of fate unfurled  
Under the girl uncurled someone new

Ooh, I'm the woman who  
Can undo quite a few  
Things done wrong  
Wrong things done  
So long overdue

Ooh, I'm the woman whose  
Three wishes came true  
Fell in two, found the one  
Now I come and go as I choose

Wearing my red magic shoes

With my soul in my heart  
And my heart in my mouth  
Steppin' in and steppin' out without  
Familiar flickers of self-doubt

I'm starting to be what I'm all about  
From understudy in the dress rehearsal  
To the lead in a role reversal  
As my impossible dream debuts

I'm the woman who's  
Got the red magic shoes

Ah, ha, oh  
Ooh, I'm the woman who

Ooh, I'm the woman who  
Can undo quite a few  
Things done wrong  
Wrong things done  
So long overdue

I'm the woman whose  
Three wishes came true  
Fell in two, found the one  
Now I come and go as I choose

I'm the woman who  
I'm the woman  
Can undo quite a few  
Things done wrong  
So long overdue

I'm the woman whose  
Three wishes came true  
Fell in two, found the one  
Now I come and go as I choose  
Wearing my red magic shoes
