Verse 1:

Bloodshot eyes and a curious gaze
Into the night think of life and faith
Trying hard to keep my soul awake
I'm feeling lost in this crowded place

Chorus:

You don't go, You don't fade
You're steady and unchanged
My constant in this place
Where I'm estranged
When I fall, my bones break
I'll never be the same
When I hear my savior say
That I'm not estranged
Estranged

Verse 2:

Trapped within this transient skin
Constant fight to keep my light burnin'
A call to spread love along the way
So I'll endure this humble highway

Bridge:

Just people passing through
This world to get to You where
We're not strangers,
We're not strangers
And when these ties are gone
We will be headed on Where
We're not strangers (x3)
