"It's Over"

Visit "[It's Over](#)" on MotoLyrics.com

Verse 1:

Stay mindful of the road they said
There's a few blind turns as you exit out of this place
I smiled apprehensively
But packed all of my things
And let the clouds of dust bid farewell

Verse 2:

I rolled all my windows down and let the
Cold air numb my finger tips
Keeping time with every beat of my favorite song
Still thoughts of where I belong

Mark every mile past

Chorus:

It's over (3x)
Forget it and drive on
Cause sometimes things go wrong
When life's out of my hands
And over my head

Verse 3:

Watch the sun set beneath the sky
As the state lines are growing closer every hour
I stopped for a minute or two with thoughts of losing
you
But force my faith to fight my fears
