Silent war is declared vision fails  
When the soul's impaired  
Noises numb the mind and  
Love grows cold with time  
If nothing fills the empty hole  
That every human heart knows

I will wait for you  
Till fire burns, earthquakes, and waves are few  
Cause silence, is where you like to stay  
So here I am, I'm waiting for you  
In this quiet place

Running hard to ignore  
The lonely places you've been before  
But you feel time is slipping  
And there's still so much you're missing  
And to heal means tears must show  
But you're not weak to just let go

I will wait for you  
Till fire burns, earthquakes, and waves are few  
Cause silence, is where you like to stay  
So here I am, I'm waiting for you  
In this quiet place

I believe  
I'm in need  
So dear sweet savior  
Come rescue me  
From this quiet place
