Space

(o. r. joiner, BMI)

Verse I:

It is love

That I remember

You

Use to build a bridge to my heart

And I would make you safe and free

To speak easily

What changed

To make you fade away

Love's dissipating

But we

Can fix this situation love

I need your love

Chorus:

Please don't leave this way

Â'Cause in my heart

I love you still

Say love can remain

Â'Cause in my heart

It always will

Afraid to give you space

Give you space

You say you need

Cause you might not decided on me

I wanna hear you say

That in your heart you love me still

Do you know I pray

That in your heart

You always will

Afraid to give you space

Give you space

You say you need

Cause you might not decide on me

Verse II:

Your clouds

Fill my mind with doubts

That you won't be around
To save a place for me
Poor me
What changed
How did we let love slip away
Oooh my heart is achin' girl
But we can fix this situation love
I need your love

Repeat chorus

Bridge
Don't walk away
Don't change
Stay wit' me
Say love can remain
Stay wit' me
Don't leave me in the rain
Stay wit' me
Stay

Repeat chorus
