Golden leaves looked brown to me
The world had less color without you
Shapes in the sky looked plain to my eyes
The world had less color without you

I know plenty of people with eyes closed
They don't see you like I do
Darling, I do

Notes on the keys meant nothing to me
The world didn't sing without you
Birds in the trees fell silent for me
The world didn't sing without you, without you

I know plenty of people with eyes closed
They don't see you like I do
Darling, I do
Darling, I do see you

I know plenty of people with eyes closed
They don't see you like
I know plenty of people with eyes closed
They don't see you like

I know plenty of people with eyes closed
They don't see you like I do
Darling, I do

Darling, I do
Darling, I do, I do
Darling, I do
Darling, I do see you
