Everything that I wish I could tell you
Is everything that I wish you would say
Too good to think it won't work anymore
Cause good things in life fade away
So I say you're so beautiful to me
You're so beautiful to me
I know I can say that
I hope everyone you meet is as good to you as I would
be
I hope this feeling all alone
Can hold it's breath until it's gone
Look into your eyes for a lifetime

God I know I could love you that way
Seems like every little thing you do for me
It seems like a movie to me
So I say you're so beautiful to me
You're so beautiful to me
I know I can say that
I hope everyone you meet is as good to you as I would
be
I hope this feeling all alone
Can hold it's breath until it's gone
I wait too long for you
It's all for you
