[Intro]

Hey, I really wanna tell you
Those dark shinning eyes
Will bring you down
They will never bring you
True love
I think yuu know what I mean
So I've given it some thought
And come up with a real
Good scheme

[Refrain:]

And what you need..
Is somebody warm like me
Who will bring you rainbow?
When everybody else knows
Now and then there's some
Snow
Oh honey you know
What you need
Is somebody warm like me
There ain't no doubt about it
If you really think about it
You know I am right
You know I'm what you need

Hey, she's really gonna hurt you
I've seen her before
And I know her style
She will only bring you sadness
I hope you'll gonna understand
As I lay awake all night
And come up with a perfect plan
(Repeat Chorus)

[Instrumental]

[Repeat Chorus]
