Word on the street says  
Your second record's dead and  
You're not doing very well

Can't say that I'm depressed  
Still I could never guess  
Just how good that makes me feel

I'm sinking to your level  
I'm sinking low down  
I'm sinking  
I know I'm going to hell  
But I'm...Yes, I'm...

I'm so happy you failed  
I'm so happy you lost your mind  
I'm so happy you failed  
Your misery makes me smile

I know that I am setting myself up  
For the same song to get sung right back to me

But I can't help it  
You are such a selfish mother  
Like no other that I've seen

I'm sinking to your level  
I'm sinking low down  
I'm sinking  
I know I'm going to hell  
'Cause I'm...Yes, I'm...

I'm so happy you failed  
I'm so happy you lost your mind  
I'm so happy you failed  
Your misery makes me smile

Look, I know it's wrong  
I feel bad I do  
But it's not like I'm the only one

We're so happy you failed

Yeah, everybody's happy  
Everyone's happy you failed  
Do you know what I mean?  
Do you hear them?  
We're all so happy you failed  
The whole world's happy  
The whole world's happy you failed  
Your misery makes me smile  
The Brazilians are happy  
The whole world's happy you failed  
The Japanese are happy  
Everyone's happy you failed  
North America is very happy  
The whole world's happy you failed  
Of course the German's are happy  
Everyone's happy you failed  
The men from outer space are happy  
The whole world's happy you failed  
And I am definitely happy  
Everyone's happy you failed
