I haven't found anything wrong with you  
Even my mother thinks you're something special  
You're comical  
(She's got it all)  
You're oh so sexual  
You're everything but there is just one problem

It's not the right time  
It's not the time to fall in love  
It's not the right time  
(It's just the wrong time)  
To fall...  
Is it every gonna be the time?

My friends already thought I was crazy  
But now they wanna lock up  
(Don't screw this up)  
They sick of hearing me complain much  
'Bout how I'm tired of being alone  
And now I wanna "go cat go"

It's not the right time  
It's not the time to fall in love  
It's not the right time  
(It's just the wrong time)  
To fall...  
No, it's never gonna be the time

(Come on, man, it's time to grow up)  
Is it ever gonna be the time?  
(You're no spring chicken)  
Is it ever gonna be the time?  
No, it's never gonna be the time  
Is it ever gonna be the time?

Is it ever gonna be the time to fall?  
No, it's never gonna be the time to fall...
