Cathy told me that she ran into you and  
My name happened to come up

Not to see how I am  
Not to send me a kiss  
You just want to let people know I'm an asshole

That I'm the reason you're screwed up  
Am I the reason that you're screwed up?  
No!

Look, I am sorry that you're life's so difficult but  
Your collapse is not my fault

Yeah, we went out for a while  
It didn't end with a smile but  
You were a loon before I even laid eyes on you

I'm not the reason you're screwed up  
Am I the reason that you're screwed up?

I think that you should see a shrink as soon as possible  
'Cause there is something that I think  
There's something you should know

You're the reason  
Blame yourself or someone else  
Not me

Try your alchy mother  
Try your sixth grade teacher  
Try your bad step brother  
Blame someone else  
Don't blame me

I'm not the reason  
Am I the reason that you're screwed up?  
No!

I'm not the reason
