Let's try to make a plan
To save a children's Earth
How can we change our minds
And stop this madness?
Today is our last chance
To keep a planet safe
Power and money
will not follow us to the grave

Hey Mr. President
How will you save your loved ones from this now?
Tell me now "Yes, we can"
"Yes, we can"
Hey Mr. president
How will you make your mother proud and safe
changing the history?

Music is all I have
To ride and hold you charmed
Will you hear every note
I say to your heart?
Tell me how can we help
To make a better day?
You know I just cannot help
Believing in what you say

Hey Mr. President
How will you save your loved ones from this now?
Tell me now "Yes, we can"
"Yes, we can"
Hey Mr. president
How will you make your mother proud and safe
changing the history?

The situation is serious

Everywhere on the planet
We need to raise all voices
We need to change all minds
Temperature's rising
Winters are getting longer
Who cares?
Well, I do.
Maybe you do too?
It's not for me or you
It's for all children, our children.

Hey Mr. President
How will you save your loved ones from this now?
Tell me now "Yes, we can"
"Yes, we can"
Hey Mr. president
How will you make your mother proud and safe?...
