Visit "[God Is Here](#)" on MotoLyrics.com

In your presence, there is fullness of life
And healing flowing, for body soul and mind
God of miracles, God of the impossible is here
God is here

God is here
Let the broken hearted rejoice (lift up your head)
God is here
Let the sick say I am well (all sufficient One)
God is here
Let the weak say I am strong (let the weak say I am
strong!)

God is here
His wonders to perform

In your presence, there is perfect peace
In the stillness, I behold your deity
God of wonders, God of power is here
God is here

[Chorus]

O His wonders, yes His wonders
His wonders to perform
(Repeat)
