Disconnected, dysfunctional

Soulmates with nobody else

Sing a song for the New Ice Age

Greed has made us lonely

Faith, Hope and Treachery

Faith, Hope and Treachery

Faith, Hope and Treachery

Faith, Hope and Treachery

Children of the 80's

Values shaped by Reagan greed

Don't stick long with anything

Going gets tough, change the channel and
flee

In

Out

Twist

Shout

Everyone's scared of everyone else

'Specially who they love the most

No kind act goes unpunished

Show you care just shows you're weak

So take 'em all for what they're worth

Otherwise they'll get you first

#1 must be preserved

Friends aren't for keeps, they're for dessert

In

Out

Twist

And Shout

Faith, Hope and Treachery

Faith, Hope and Treachery

Faith, Hope and Treachery

Faith, Hope and Treachery

Years go by, get sick of games
Warmth gets repressed just like hate

Reagen children flunk out at love

It's always someone else's fault

It's always someone else's fault
It's always someone else's fault

It's always someone else's fault

Faith, Hope and Treachery
