

## Large Professor "In The Sun"

Visit "[In The Sun](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Yo, yeah, nowhere to run to, nowhere to hide  
Sittin' on the front stoop right outside  
In the moonlight when I take flight, I fly  
Crack the engine then I break out like Gon Benchin

Thousands of pounds spit thousands of rounds  
And verses help 'em out like I found missin' person  
This time I'ma try to lie on Tony Person  
So people can hear how my rap sound perfect

Could hate a nigga, but in fact it's not worth it  
Never know how long you've got on this earth kid  
Count them blesses and pay them dues  
Keep rollin' with the winners 'cause they don't lose

In the two g-era the skies is lookin' clearer  
And nothin' can stop them guys that's in the mirror  
So thankful that I keep my hands on the bankroll  
Can't play the shittrack without fallin' of the bankroll

So I stay stable like a natural born hustla  
Kickin' that hot shit right for all the customers  
Near or far comin' here to star  
I'll be pourin' out beer in the park

For my loved ones  
Deep and dick is how my love runs for you  
So with no further a do, I'ma smash it kick that shit  
They call acid, 24 hours a day remain classic

In the sun, in the sun kid  
(Keep going)  
In the sun, in the sun kid  
(Keep growing)  
In the sun, yeah, in the sun  
(We keep moving)

In the sun, in the sun kid  
(We improving)  
In the sun, in the sun yo  
(We ain't stop it)  
In the sun, yo, in the sun kid

(We don't stop it)  
In the sun, yeah, in the sun  
(We keep moving)

I arise from my melinence to the sun beginnings  
Kiss by the way of a sunny day  
But I feel it in my boner child's without a home  
A prison cell holds a dream to a black thing

I never thought I'd see the day when brothers pledgin'  
leadges  
To a red white, I'm too this way wavin' non truth  
Yo, here's the forty acres in the mule, hah  
You rather get this Mickey D's in the tool, hah

And in the sun I see the way you pull a harsh dreams  
And in the sun I see your own way to new things  
Every man has got to bow down at God's grace  
Every soul has to concede to God's goals

Politicians get religious to the star people  
As the constitution reader says I'm not equal  
Three fifth's of the gifts from the love supreme  
This gotta be a bad dream I'm here at train screen

Little kids are gettin' robbed for computer dwarfs  
Family structure is destroyed marriage null avoid  
All he's gotten formulated will he hate to say it  
What I can see it isn't really in the sun

In the sun  
(Keep going)  
In the sun  
(Keep growing)  
In the sun, yeah  
(We keep moving)  
In the sun  
(We improving)

In the sun  
(We ain't stop it)  
In the sun  
(We don't stop it)  
In the sun  
(We keep moving)

Yo, don't never think I'd forgotten the day's flag is in  
[Incomprehensible] sittin' in the lunchroom eatin' and  
dreamin'  
On about the things we do  
When we reach in defendance nothing is brandnew

It's all still a part of the plan, meet your man  
From decades ago can't nobody understand  
The hard shits we been through sun to sun  
On the wake up knock, knock

Everybody gotta run for the ultimate goal  
Can lose their soul in the process  
So and to you I say God bless seein' your face  
Lets me see my own so why zone

And think about the days we got stolen  
In the staircases of parkin' buildings livin' childrens  
Rollin' in the world so cold just like pelgrims  
In my great dilly nowadays perilli

Get to see one and other and when we connect  
We still brothers and now we in the cooperative world  
And the game is different you get caught up in the twirl  
If your fam ain't effective so here's our perspective  
To help each other 'cause man ain't it hectic

In the sun, in the sun kid  
(Keep going)  
In the sun, in the sun kid  
(Keep growing)  
In the sun, yeah, in the sun  
(We keep moving)

In the sun, in the sun kid  
(We improving)  
In the sun, in the sun, yo  
(We ain't stop it)  
In the sun  
(We don't stop it)  
In the sun, yeah, in the sun  
(We keep moving)
