Standing on the side lines  
Watching everybody enjoy the show  
The bad attitudes not  
Invited so just let the feeling go  
I think back to all those good times  
Yeah when we were young  
So many memories on my mind sometimes I just don't  
know  
What's don't is over  
Just take my hand forget your problems  
Let me see you... it's coming up close to midnight  
The fun was about to end  
When everything before seemed alright  
Now look at the mess we're in  
Maybe I'll find a solution  
But the words aren't always clear  
Consider it my contribution just happy to have you here  
What's done is over just take my hand  
Forget your problems  
Let me see you dance  
Now were older it's easy to understand forget your  
Problems  
Let me see you dance  
This is all over well start all over  
This ticket to ride is at the end, the end.
