Stow away the cache
The powder is still dry
Ready to blow away
That look in old Tom's eye
Look of longing, yeah he's wanting to belong
Singing the old songs, we'd sing them all night long
Brothers of a different color, it's alright to me
Brothers of a different mother, it's alright you see
Brothers and sisters come and dance with me
Brothers and sisters come dance and sing
Hide the powder and Old Manitou Springs
Down where my old joll' blonde used to swim
Sound of longing, yeah she's wanting to belong
Singing the old songs, she'd sing them all night long
Brothers of a different color, it's alright to me
Brothers of a different mother, it's alright you see

Brothers and sisters come and dance with me
Brothers and sisters come dance come dance and sing
come dance come dance and sing yeah
Je ne cais pas oui vous jais francaise
Stow away the cache I don't know what I just said
Come on everybody lets just put our troubles at bay
Dance, sing, enjoy this cochon de lait
Oh Brothers of a different color, it's alright to me
Brothers of a different mother, it's alright you see
Brothers and sisters come and dance with me
Brothers and sisters come dance come dance and sing
come dance and sing come dance and sing yeah
