Night time magic woman got a hold on me  
Night and day I pray that your magic won't let me be  
I'm a prisoner of love and I never wanna be set free  
I never wanna be set free

I was crazy and your magic healed me  
I was empty and your magic filled me  
I was wanderin' and your magic found me  
I was lonely, lonely and you wrapped your magic lovin'  
around me  
You wrapped your magic lovin' around me

Night time magic woman got a hold on me, yeah  
Night and day I pray that your magic won't let me be  
I'm a prisoner of love and I never wanna be set free  
I never wanna be set free

Night time magic woman got a hold on me
