Watching you work  
Your wheel spinning round  
I can't say that I'm, not inspired by you

But baby it hurts  
And you're letting me down  
I use to be everything you swore was true  
Why change for you

You're kissin' my mouth  
I'm kissin' the wind  
Trying figure this out  
You're just tryin' to get in  
Don't know where you're at  
I remember when  
Use to be my lucky seven  
Got lost inside your heaven  
But now, I can't pretend  
You're kissin' my mouth  
I'm kissin' the wind, wind, wind

And when we fight  
I don't wanna let go  
But you're making the choice for me so easy, yeah

Can we turn back  
No we'll never know  
It sounds like noise to me, listening to.....your vanity

CHORUS

Well these were the days  
Did we let them fade away

You're kissin' my mouth  
I'm kissin' the wind

CHORUS x 3
