### "All Night Long"

Visit "[All Night Long](#)" on MotoLyrics.com

Baby, lay it on the line

If I am on your mind  
Baby, do you like romance  
If you care for me, better take this chance

Baby, I played my last card  
So please don't brake my heart

If you want me too, you just give a shout  
Baby, time is runnin' out  
I wanna make love with you (x4)  
I wanna make love with you, all night, all night long

I wanna make love with you, all night (x8)  
I wanna make love with you all night long

I wanna make love with you all night long  
I wanna make love with you, all night, all night long  
Baby, I am on my knees

Be mine, I beg you please  
Baby, it's decision time

Got to know right now, there's nowhere you can hide  
I wanna make love with you, all night (x8)  
I wanna make love with you, all night, all night long  
I wanna make love with you all night long  
I wanna make love with you all night long I wanna make  
love with you, all night, all night long
