"Deep In Your Heart"

Visit "[Deep In Your Heart](#)" on MotoLyrics.com

I do know life's been hard for you my love
We'll take it slow and let our feelings grow
Day by day I feel I'm getting closer to you
Come with me, won't let you slip away

Deep in your heart you are longing for love
I know you want me too
Deep in your heart you are longing for love
Deep in your heart you are longing for love
That's all I want from you
Deep in your heart you are longing for love
You feel the way I do

To survive you have tried to run from love
And I keep longing to be with you
Deep down inside you want me in your life
Storm by storm I'm breaking down this wall 'round your
heart

I hold on to all your fears are gone
I know you want me too
Deep in your heart you are longing for love
Deep in your heart you are longing for love
That's all I want from you
Deep in your heart you are longing for love
Deep in your heart you are longing for love
You feel the way I do
And I keep longing to be with you
