

Chase Coy "Never Change"

Visit "[Never Change](#)" on MotoLyrics.com

If you hear this
Wherever you are
Just know I need you here
I need you near me now
You were brighter than the pale white moon
Reflected in your eyes
So I guess it's no surprise
I can't forget you
No matter what I do

I will always carry you
In my heart
You'll always be my shooting star
Autumn days will fade away
But memories will always stay the same
I'm hoping you will never change
Don't ever change
I just need to slow down for awhile
I'm missing your warm smile and the way you used to
say
Stay with me until the daylight breaks
No matter what it takes
Just say you'll stay
Just say you'll stay

I will always carry you
In my heart
You'll always be my shooting star
Autumn days will fade away
But memories will always stay the same
I'm hoping you will never change
Don't ever change
