I don't even know, iv never felt this way before but with
someone like you, it makes sense.

And i don't wanna go, ill stay with you forever just as
long as you love me too.

Just as long as you love me too.

Its the way that you talk and the way that you smile,
and the way that you love black and white.

Baby its the way that you hold my hand in the car, and
the way that we lie in the sand.

Its not that hard to see, that a single say without you
could make me go crazy.

It takes my breath away, gives me butterflies when you
hold me, when you sleep.

When you hold me in your sleep.

I never want to leave.

Its the way that you talk and the way that you smile,
and the way that you love black and white.

Baby its the way that you hold my hand in the car, and
the way that we lie in the sand, and we watch the sun
go down.

(x2)
