"Hold Me Now"

Hold me now, Like I've ever said
Show me how, The way I should not regret
Hold me tight, What I've ever felt is true
Cause you hold on me, What you see, This is what you
do

There's nothing, No way, Nothing inside
There's nothing, No way, No colors deep inside
I walk away in every mind
No sorry, Regrets, No colors deep inside

Hold me now, Like I've ever said
Show me how, The way I should not regret
Hold me tight, What I've ever felt is true
Cause you hold on me, What you see, This is what you
do

There's nothing to say, Nothing to hide
There's nothing to say, No stories left inside
I walk away in every mind
No sorry, Regrets, No colors deep inside

I wanna feel inside, I wanna get
Inside, I wanna feel inside

Hold me now, Like I've ever said
Show me how, The way I should not regret
Hold me tight, What I've ever felt is true
Cause you hold on me, What you see, This is what you
do
