

Addictiv "Little Game"

Visit "[Little Game](#)" on MotoLyrics.com

You lit my fire
Baby don't you stop now
Let me hear you screamin'
Play my little game

Shut the two-way off now
Take them clothes up off'a ya
Let me show ya how we
Play my little game

Got my girls and me
Lookin' fly
Takin' a night out
We out the door

As I pulled up to the club
Saw you there
Damn you're hard to ignore

Party's jumpin'
You're on the floor
Lemme put your hands
Where I want them more

As I move wit'cha
I can't deny it
I want you badly
Baby we on fire

I just wanna
Show you what'cha
Want me to
Come into my secret place
You'll see what I do

You lit my fire
Baby don't you stop now
Let me hear you screamin'
Play my little game

Shut the two-way off now
Take them clothes up off'a ya

Let me show ya how we
Play my little game

Move your body now
Shake your body now
All the way down
All the way down

Move your body now
Shake your body now
All the way down
All the way down

Seen you 'round here
Once before
Turn my head to ya
Hard to ignore

Got me thinkin'
I approached ya
Gave you my number
To give me a call

It's two A.M. now
I hear your voice
Askin' me what I'm wearin'
Take it off

I'm wonderin' if you're
Comin' over
So we can do
Just a little explorin'

I just wanna
Show you what'cha
Want me to
Come into my secret place
You'll see what I do

You lit my fire
Baby don't you stop now
Let me hear you screamin'
Play my little game

Shut the two-way off now
Take them clothes up off'a ya
Let me show ya how we
Play my little game

[Rap-break]

You lit my fire
Baby don't you stop now
Let me hear you screamin'
Play my little game

Shut the two-way off now
Take them clothes up off'a ya
Let me show ya how we
Play my little game

You lit my fire
Baby don't you stop now
Let me hear you screamin'
Play my little game

Shut the two-way off now
Take them clothes up off'a ya
Let me show ya how we
Play my little game

Move your body now
Shake your body now
All the way down
All the way down

Move your body now
Shake your body now
All the way down
All the way down

Move your body now
Shake your body now
All the way down
All the way down
