Prairie days have gone away leaving us in disarray  
Fancy cars and credit cards have taken the world  
The world by large, Sad but true the only view of  
The world is not so true, is not so true  
Would you believe it if you saw it or would you take  
It for what it is  
When I see the sun I see a solar-centered symphony  
Rising on creation found by only one, It's not hard to  
see  
That we could be the ones to make the world believe  
We are so far we need the world to cater to our every  
need  
Generation to generation conversations about the right  
Religion but desperate are we that we try to seek  
Everything but peace and restoration

We've got a purpose, it's all around us but Hollywood  
Has got their opinions  
When I see the sun I see a solar-centered symphony  
Rising on creation found by only one, It's not hard to  
see  
That we could be the ones to make the world believe  
We are so far we need the world to cater to our every  
need  
So get up, get up, get up, get up and get out  
(Out of the box give it up, you've got to give it up)  
Get up, get up, get up, get up and get out  
(Out of the box give it up, you've got to give it up)  
When I see the sun I see a solar-centered symphony  
Rising on...
