I met a parting of the ways I don't know what to do  
Ask my mind answered and beat like this  
I see the things are not so easy to me across the road

Still, you just head with your burning heart  
Your goodness is showing your way  
That's what I believe it so  
The heart is again again beating it so

Imagine, infinite world  
Feel free such truly precious one  
Such a gloomy world just like joking break it, fix it

What a awesome world, free to buy it  
What's Hedge Fund and what!  
It's nothing! Forget about it!  
Real true world is free!

Still, you're just headed with your burning heart  
Your goodness is showing your right way  
That's what I believe so  
The heart is beating so

Imagine, endless infinite world  
Such a gloomy world just like joking break it, fix it

Still the eight beat did show me right way  
Eight beat is right! Eight beat is right!  
Your goodness is showing your right way  
That's what I believe it so  
The heart is beating so

Imagine, endless infinite world  
Such a gloomy world just like joking break it, fix it
