Dive into the sea  
You should stay cause I could use the company  
There's more than what you see  
These words burn and scorch right to the core of me

and you are such a gem  
and so easy for me  
cause you know just who I am  
and what I need

Give me a distraction

This is one of those things

that we never mention - no new song to sing  
Oh, so tell me anything  
Give me truth or lies - I don't care  
I don't wanna think about you

and you are such a gem  
and so easy for me  
cause you know just who I am  
and what I need

Give me a distraction
