I wanna be your king of failure  
let's fall in love - come on, I dare ya  
let's get out of control we won't know how to stop this  
Probably ruin us both in the process  
I wanna be your King of Failure

This is not love  
This is not real  
so you fake it til you feel it  
with all you conceal  
This is not love

I want you to be my queen of pain  
I want you to leave me out in the rain  
I want you to tell me what to do

I want you to plan my every move  
I want you to be my queen of pain

This is not love  
This is not real  
so you fake it til you feel it  
with all you conceal  
This is not love  
so why are you asking  
why are you basking in an imaginary glow  
This is not love  
This is not love

I wanna be the one you're after  
I wanna be your next disaster
