Another day that pulled you under
come on come on
Is it really any wonder
come on come on

Another day you're stuck inside
come on come on
I got a brand new place to hide
come on come on
Do you feel alive

I'm in over my head
Feeling so numb
Under your thumb
I'm in over my head

Is the world caving in
Under your skin

Another day you shouldn't trust
come on come on
I am bitter bone and dust
come on come on
Do you feel alive

I don't want to see
What it does to me
What else could it be
It's alright

Do you feel alive
