I can't come back to you America  
'Cause it hurts too much to leave  
I can't stay for an eternity  
'Cause I got my own home and family

I can't come back to you America  
To your deserts and palm trees  
I can't stay for an eternity  
And I need to let, let you be

Chorus  
We can start again  
'Cause I can take the pain  
.. .. with you America

I can't go back to you America  
'Cause it hurts too much to see  
All the beauty that will never be  
Never be a part of me

Chorus

All the beauty that will never be  
Never be a part of me

Chorus

Thanks to feel
