You, it was always you for me
Nothing could change it
Me, was there ever me for you
It's always changing

Some were holdin' up too high
So you're sorry now
So you need me now
As if I ever loved you

As if I would walk down to the altar with you
As if I would care for someone other than you

Tears, how they make us stay
Till our cheeks dry from comfort
Time, and we thought it would heal
As if I could make you want me

Some were holdin' up too high
So I'm slipping out of your head
While you'll stay put in mine

As if I would walk down to the altar with you
As if I would care for someone other than you
