"If"

If it is hard to bear
I'll hold the weight
I'll hold the weight

If there are things you ain't
I'll compensate
I'll compensate

But you should never blame yourself
put the blame on everybody else
'cause they don't see what I see

if no one understands
I'll understand
(I'll understand)
I'll understand
(I'll understand)

if you get left behind
(I will rewind)
I will rewind
(I will rewind)
I will rewind
(I will rewind)

But you should never blame yourself
put the blame on everybody else
'cause they don't see what I see

No you should never blame yourself
put the blame on everybody else
You should never blame yourself
put the blame on everybody else
'cause they don't see what I see
