(Verse 1)

I cannot stress enough for answers  
To the questions in my mind  
Thoughts betray me as I'm searching  
For the love I can't find  
Then you fell down  
Then you fell down  
Then you fell down on me! (rpt)x2

(Chorus):

I'm Still Alive!  
I'm Still Alive!  
Save me from my own demise! (rpt)x2

(Verse 2)

Through your eyes  
You told me  
To put away my fear  
The blurryness taking over  
Is now becoming clear  
As I open  
As I open  
As I open my eyes! (rpt)x2

(Chorus) X2

(Bridge after solo)

-Save ME! -

(Verse 3)

Filtering through my destiny  
And looking at what I can see  
All around me I hear the sound  
... Of your heartbeat!  
As I found out  
As I found out  
As I found out the TRUTH! x2

(Chorus)x4

(Outro)

(I am HERE STILL ALIVE) x 4
