And I wonder.
I let my mind expand.
Just like the universe,
With no conceivable end.

And I can see every detail,
As far as the eyes will allow
And I can see through the trees
And make out things you've never known

There's a much bigger plan
We'll never come to understand

But I never felt so sure
As when I saw the sunlight shine
The sunlight shining down so pure

But I never felt so sure
As when I saw the starlights shine
The starlights shining down so pure
