

Last One Dying "Choke It Down"

They try to give life to the lifeless
While we can't even give life to ourselves
They make sacrifices for progress
Close your eyes
Dream your dream
All is well

[Chorus:]

We're finally all out of hate
We're finally all out of love
They breathe it in
We choke it down
We're finally all out of rage
We're finally all out of trust
They breathe it in

They castigate us for our blindness
Only because they're afraid of the truth
They say they're longing for justice
Close your eyes
Dream your dream
Go to hell

[Chorus]

We choke it down
Tomorrow we'll be ashes
Guided by stars that we cannot see
Given a life that we cannot live

[Chorus 4x]
