Why do we want no one
Why do we want no one
Why do we want no one to know

Why do we hear no know
Why do we feel no one
And why do we want no one to know

We knew what we wanted before we started
This, what we want tonight
Before this kiss
What we wanted to know
Before our eyes what's all a lie

Why do we want no one
Why do we want no one
Why do we want no one to know

Why do we feel no one
Why do we hear no one
Why do we want no one to know

We knew what we wanted before we started
This, what we want tonight
Before this kiss
What we wanted to know
Before our eyes what's all a lie

We are creations of ourselves
The bodies we live in are merely shells
For the soul that lies within
The life you live is the life you give
The life you give
You give, you're given
