(Let's rock this temple)

Pick a smile and I'll put it on for you
Read your fortune
If you don't, then it won't come true
You tie me in the back of your car
Put the window down
Put the radio on
Spin 'round me like a sunset on fire
Back to the future, baby
Back where we can belong

Oh-ohhh
(Oh-ohhhh)
An electrical world
(Electrical world)
Can't re-invent the enemy
Get them on our side

Oh-ohhh
(Oh-ohhhh)
An electrical world
(Electrical world)
Hard to believe anything

Name your posion
And I'll pour it out for you
Stick beside me
And you know we can pull through

You tie me in the back of your car
Put the window down
Put the radio on
Spin 'round me like a sunset on fire
Back to the future, baby
Back where we can belong

Oh-ohhh
(Oh-ohhhh)
An electrical world
(Electrical world)
Can't re-invent the enemy

Get them on our side

Oh-ohhh
(Oh-ohhhh)
An electrical world
(Electrical world)
Hard to believe anything

We all come down from the mountainside
We all come down from the mountainside
Give you one chance
Give a chance to state your lie
We all come down from a mountainside

Oh-ohhh
An electrical world
We can't re-invent the enemy
Get them on our side

Oh-ohhh
(Oh-ohhhh)
An electrical world
(Electrical world)
Hard to believe anything

Oh-ohhh
(Oh-ohhhh)
An electrical world
(Electrical world)
Can't re-invent the enemy
Get them on our side

Oh-ohhh
(Oh-ohhhh)
An electrical world
(Electrical world)
Hard to believe anything

(You tie me in the back of your car)
Electrical world
(Spin 'round me like a sunset on fire)
(You tie me in the back of your car)
Electrical world
You tie me in the back of your car
