

Last Perfect Thing **"Wait"**

With her eyes wide open inside
She's terrified, I'm fine
Caught in the headlights
And breaking undertide
Passes by
Thought you knew it all

And I'll wait
As she moves around
There's no way
She'll be coming back around again

If you gave me your picture
Would you write on the back of it
Don't ever change, keep up the best you can
It's what you always
Said to me, over and over
I thought you knew it all
But people dream, you couldn't see
Who's wasted and dreaming now

And I'll wait
As she moves around
There's no way
She'll be coming back around again

With her eyes wide open tonight
She takes me aside
Quick flash your picture
Remember all you said to me
Over and over
I thought you knew it all
But people bleed, you couldn't see
Who's wasted and bleeding now

And I'll wait
As she moves around
There's no way
She'll be coming back around
And I'll wait
As she moves around
There's no way

She'll be coming back around again

Everything you said to me
Over and over
I thought you knew it all
But people dream
You couldn't see
Who's wasted and dreaming now

And I'll wait
As she moves around
There's no way
She'll be coming back around
And I'll wait
As she moves around
There's no way
She'll be coming back around again
Wait
Wait
Wait

Wait
