

Last Perfect Thing "Wayside"

Visit "[Wayside](#)" on MotoLyrics.com

You've got your cross to bear
I'll bear mine
Let it fall by the wayside
And blame it all on time

This is a test
This is a game
Will I play along
Will I go insane for you

If this is a test
If this is a game
Will I play along
Will I go insane for you
Insane for you

I save
All this broken time with you
Keep away from me
It lets me know
That I am so wrong

You've got your cross to bear
I'll bear mine
Way-oh, way-oh!
Let it fall by the wayside
And blame it all on time

You've got your crossings cleared before mine
Been stuck in traffic before
A day late, a dollar short

If this is a test
If this is a game
Will I play along
Will I go insane for you
Insane for you

I save
All this broken time with you
Keep away from me
It lets me know

That I am so wrong

If this is a test
If this is a game
Will I play along
Will I go insane
For you

If this is a test
If this is a game
Will I play along
Will I go insane

I save
All this broken time with you
Keep away from me
It lets me know
That I am so wrong

I save
All this broken time with you
Keep away from me
I save
All this broken time with you

I save
All this broken time with you
Keep away from me

I save
All this broken time with you
