Visit "[A Part Of Me](#)" on MotoLyrics.com

Ev'ry single word of you
Keeps thinkin' me about it
[What are you doing with me]
A stream of pictures, a waste of thoughts
Running through my head
You cast a shadow in my direction
You aren't here - that's all I have

Why am I sittin' here again?
Why can't I trust someone else?
When will I recognize
If we're just friends?

A part of me or just a false impression
But who can answer this?
[You wear me out, you did, you do]
You never called! [you never did!]
I've waited for so long

[I feel ashamed - I did, I do]
What shall I do for you?

Throwing stones into a river [I feel wasted]
Can't believe the truth
A hand, a view and your with me
[I feel impressed]
I turn around and you are smiling
[Cannot believe it]
But seconds later I'm awake
Why can't I just be with you?

Why am I sittin' here again?
Why can't I trust someone else?
When will I recognize
If we're just friends?

A part of me or just a false impression
