"Moving On"

Visit "[Moving On](#)" on MotoLyrics.com

I'm weak, we're so strong
I've lost, we move on
I fall, we stand up
I spill, you fill my cup

Now I've been away and I'm ashamed to say
That you've been right here waiting for me
Now I'm coming back and I'm picking up the slack
And I wont go far, I wont go far

I fell but we're okay, we are moving on, we're moving
on today
I fell but we're just fine, we will make it through, we'll
make it through this time

Life's short, days are so long
No smile, there's always something wrong
Changes, not the way I planned
Ask why, so hard to understand
