"Ready For The Storm"

You better beware
You better prepare for the coming storm
Seek for shelter before it's too late
You better watch out for the demons in the sky tonight
Waiting for a chance to take your life

The sky is black. Whispering threats
Giving you a final warning

Are you ready for the storm
Ready for the storm
Are you ready for the storm
Ready for the storm

The thousand stars are eyes watching every step you
take
They know all about your secrets
The moon is smiling while he's making plans for you
tonight
The wind will take your last light

The sky is black. Whispering threats

Giving you a final warning

Are you ready for the storm
Conquer the evil wind
Ready for the storm
Are you ready for the storm
Fight with the angry sky
Ready for the storm

The sky is black. Whispering threats
Giving you a final warning

Are you ready for the storm
Conquer the evil wind
Ready for the storm
Are you ready for the storm
Fight with the angry sky
Ready for the storm

Are you ready for the storm
Conquer the evil wind
Ready for the storm
Are you ready for the storm
Fight with the angry sky
Ready for the storm
