Starlit, I'm already losing it when you left an hour ago.
And the stars are bright but I miss you, I just can't hide
it.

Because when I see you waking, God it's a feeling no
one knows.
I see you wake, then you go.

I'll wait for you. And I'll wait for you.

So tell yourself you're just afraid.
Believe the things you told yourself before.
But I'm standing here.

So trust in me as I trust in you.
Just let go of the pain that you hold on to.
I'm standing here.

Starlit, I'm already losing it when you left an hour ago.
So I'll hold my breath, and I'll see you soon (see you
soon).

Because when I see you waking, God it's a feeling no
one knows.
I see you wake, then you go.

I'll wait for you. And I'll wait for you.

So tell yourself you're just afraid.
Believe the things you told yourself before.
But I'm standing here.

So trust in me as I trust in you.
Just let go of the pain that you hold on to.
I'm standing here.

See you waking, a feeling no one knows.
See you wake, then you go.

You can tell yourself you're just afraid but
Believe the things I tell you don't get colder.
I'm standing here.

You save yourself, you save yourself.
You can tell yourself you're just afraid but
Believe the things you told yourself before.
I'm standing here.
