

Last Week "Hope"

Visit "[Hope](#)" on MotoLyrics.com

He is looking for a place he can feel fine
She is looking for that place that she left behind
They know that they don't know what to do
I've got some advice for you

With a little bit of hope
With a little bit of hope they'll be singing
Their hearts are ringing

Nah

Sit around and you think about it

What's to live for I hope you doubt it
Stick around you've got lots left to do
No one wants to be hurt by you

With a little bit of hope
With a little bit of hope they'll be singing
Their hearts are ringing

Nah

So don't give up your life
You've got so much left to do

Nah
