

Last Week "You And Me"

Visit "[You And Me](#)" on [MotoLyrics.com](#)

I wanna go with you today
'Cause you don't seem to hear a word that I have to say
Its like you don't see me
'Cause every time I think of you
I wish we were together
Dream of what we would do
I don't think that you see me that way

Look at me, look at me, oh look at me
'Cause you never stop to think about you and me

What do you do what do you say
Pictures of you in my head
Pass you by you don't say hi
Talk to you forever feels like you don't know me
I am not hard to see
You're not even a friend to me
Guy like me are hard to find
Talk to you forever feels like you don't know me
Look at me, look at me, oh look at me
'Cause you never stop to think about you and me

I can't be with out your love
How can I sit and just let you go
What else must I explain
Being quiet with make you go insane

I think you need to have a listen
Me and you need to do a little kissing
Why can't I just find a girl like you
My heart will always be true
Every time I think of you
I wish we were together
Dream of what we would do
I don't think that you see me that way

Look at me look at me oh look at me
'Cause you never stop to think about you and me
