This summer air feels right
Sit and breathe the heat tonight
As shallow as i seem
Trade a part of you for a part of me
I've been waiting for
Everything to turn out right
Im so sick of always asking why?
Im drowning
Sinking faster, nothing seems to work out right
Somone save me tonight
Cause im on your side
I've saved this last goodbye
For everyone who wonderd why?
I've been content to break
Hearts, hopes and dreams with all my mistakes
I've been waiting for
Everything to turn out right
I'm so sick of always asking why?
Im drowning
Sinking faster, nothing seems to work out right
Somone save me tonight
Cause im on your side
Change my mind
One more time
This is all i need to say
These regrets hang round my neck
Reminding me of how i went wrong
Im drowning
Sinking faster, nothing seems to work out right
Somone save me tonight
Im drowning
Sinking faster, nothing seems to work out right
Somone save me tonight
