Catch me before I hit the ground
Fall so hard but make no sound
Slip right through your fingers
Guess we weren't meant to be
This time everytime
I fail to see the sign
Your lack of interest
Ensures your at your best
This is overrated
Underestimated
Lost for words again
Lovestruck but heartbroken
Catch me before I hit the ground
Fall so hard but make no sound
Slip right through your fingers
Guess we weren't meant to be
I'd like to think that we
Missed oppertunities
And as a consequence
Nothing makes any sense
No choice but to take it
No point but to fake it
Lost for words again
Lovestruck but heartbroken
Catch me before I hit the ground
Fall so hard but make no sound
Slip right through your fingers
Guess we weren't meant to be
Catch me before I hit the ground
Fall so hard but make no sound
Slip right through your
Guess we weren't meant to be
Cant you see?
