This summer air feels right  
Sit and breathe the heat tonight  
As shallow as i seem  
Trade a part of you for a part of me  
I've been waiting for  
Everything to turn out right  
Im so sick of always asking why?  
Im drowning  
Sinking faster, nothing seems to work out right  
Somone save me tonight  
Cause im on your side  
I've saved this last goodbye  
For everyone who wonderd why?  
I've been content to break  
Hearts, hopes and dreams with all my mistakes  
I've been waiting for  
Everything to turn out right

I'm so sick of always asking why?  
Im drowning  
Sinking faster, nothing seems to work out right  
Somone save me tonight  
Cause im on your side  
Change my mind  
One more time  
This is all i need to say  
These regrets hang round my neck  
Reminding me of how i went wrong  
Im drowning  
Sinking faster, nothing seems to work out right  
Somone save me tonight  
Im drowning  
Sinking faster, nothing seems to work out right  
Somone save me tonight
