"Bloody Kiss"

Out of line, out of time, out of something to say
I don't mind, take your time, you can't take that away
Take it all, take it off, take it one at a time
Little girl, little girls get carried away
Easier done than said.
So go ahead, go ahead

I don't want this, I need this
I'll seal this with a bloody kiss
I can't feel this, but I'll feed this
I'll steal you, with a bloody kiss

Out of lines, out of lies, out of tears and wine
Clouded mind, losing time, losing something inside
Take it off, take it all
Take it once in a while
Little girl, little girls can't take that away

In the darkness I cannot resist
Sealed with a bloody kiss
